1 K.St.N. FOR INFANTRY DIVISIONS

These are K.St.N. sets for the 1944, 1945 and Volksgrenadier infantry divisions. The 1944 version is complete with the Volksgrenadier only missing the supply units. The 1945 version is lacking the supply troops as well as the signals battalion. The supply troops for the VDG and the ID.45 are the same with only two exceptions. Some of the K.St.N. sets are shared across the different division types, such as the division HQ units and the Anti-Tank Battalion. This [comparison tip sheet](#) shows how the K.St.N. compare across the infantry division types.
