

## ***BASIC STRUCTURE DIAGRAM***

[German Volksgrenadier Division]

## Grundgliederung [Basic Structure]

### Volksgrenadier Division<sup>1</sup>

The organization basic structure diagram is basically all the KStN represented in tactical symbol form. Typically each battalion or regiment is represented within its own area. The layout tends to be more or less typical for all division types.

The sheet below has been setup as an 11 x 17 document and should be printed in these dimensions for the best results. It can also be printed on 8.5 x 11 but some of the smaller writing may be difficult to read.
