GUIDES TO GERMAN RECORDS MICROFILMED AT ALEXANDRIA, VA.

No. 5. Miscellaneous German Records Collection (Part I)
This is part of a series of guides prepared by the American Historical Association listing records microfilmed at Alexandria by the American Historical Association Microfilming Project.

An American Committee for the Study of the War Documents was established in 1955 as a private group of scholars interested in documentary research and especially in the microfilming of records of foreign origin kept in American depositories. In 1956 the American Committee became a committee of the American Historical Association. Its present Chairman (1958) is Professor Oran J. Hale, University of Virginia, who was preceded by Dean Reginald H. Phelps, Harvard University, and Professor Lynn M. Case of the University of Pennsylvania. An initial Ford Foundation grant and additional funds provided by the Old Dominion Foundation enabled the Committee to undertake the cataloguing and microfilming of declassified German records in the custody of the World War II Records Division of the National Archives (previously TAGO, Departmental Records Branch, more recently Military Records Branch, Federal Records Center, Region 3, General Services Administration) at Alexandria, Virginia.

The plans for screening and microfilming of these materials were prepared by a Subcommittee on Microfilming under the Chairmanship to the end of 1956 of Professor S. Malcolm Carroll, Duke University, and his successor, Dr. Fritz T. Epstein, The Library of Congress. Professor Gerhard L. Weinberg of the University of Kentucky directed the microfilming team in Alexandria in 1956/57 which is now under the supervision of Dr. Dagmar Horna Ferman.

The present guide is a collection of descriptions of record groups filmed by the Microfilming Project of the AHA Committee. Because the project is not yet complete, this guide will appear in installments.

The American Historical Association expresses its appreciation for the cooperation given to its Committee for the Study of War Documents by the staffs of the World War II Records Division, the National Archives, and the U.S. Department of the Army.

Washington, D.C., July 1958

Dr. Boyd C. Shafer
Executive Secretary, AHA
This Guide is one of a series of finding aids describing those declassified seized German records deposited at the Military Records Branch, Federal Records Center, Region 3, General Services Administration, that have been microfilmed by the Microfilming Project of the American Committee for the Study of War Documents (now the Committee for the Study of War Documents of the American Historical Association). The Guide contains the text of data sheets identifying records filmed. A copy of the data sheet has been filmed as a target sheet at the beginning of each roll of film.

The Guide covers 28 rolls of film of records from a record group containing a wide variety of documents organized according to a subject scheme, generally without regard to provenance. The group includes materials pertaining to the activities of leading National Socialist officials, to the opposition against Hitler, the German administration of Austria, and other subjects. Other parts of this record group will be filmed at a later date.

The terms "Serial" and "Roll" in this Guide refer to the sequence of the film. The "Item" number is the identification symbol on the original folder within the captured records collection. "Provenance" indicates, where ascertainable, the archival origin of the documents whose description follows. The symbol "FT" means that the folder has been filmed throughout, the symbol "FS" denotes that the folder has been filmed selectively. "1st Frame" gives the frame number of the first page of the folder. Every exposure has been given a frame number consecutively throughout the filming operation. The "Notes" provide a general idea of the nature of the materials but should be taken as hints, not complete descriptions. When the German file number could be ascertained, it has been included. The nature of the records filmed makes it necessary for researchers to check the whole guide since no index has been prepared.

The original records are located in the War Records Division II, National Archives (previously Military Records Branch, Federal Records Center, Region III, General Services Administration) under Record Group 108. The microfilms are deposited in the National Archives, Washington 25, D.C., as microcopy Fo. T-SU and should be requested by adding to "T-SU" the roll numbers.

Translations of many of these minutes and other information relating to them may be found in Felix Gilbert (ed.), Hitler Directs His War (New York, 1950).

Folder 2. List of German general staff officers lost in the period 21 June - 15 September 1944. Lists of officers dismissed from the army in connection with the 20 July plot, lists of other officers implicated or persons related to those implicated, and their fate.

Folder 4, beginning Frame: 44534. A report by Oberleutnant in Generalstab Seedorf, 1 August 1944, on the background of the 20 July plot, in particular on the situation in the Operationsabteilung of OKH (General Heusinger) and on the Chief of Staff (General Zeitzler). There are marginal annotations by Jodl, these are transcribed on a page at the end of the folder. The document is initialled J/Jodl 13.8. and W/Drummond 19.8.

Folder 14, beginning Frame: 44543. A file on the 20 July plot from the Handakten of Gauleiter Teleshow of Gau Ost-Hannover. It contains the instructions sent out by Horlemann; SD reports on popular reactions to the plot and other contemporary events; and the Informationsbericht of the Reichspolizeiamt Ost-Hannover on the 20 July.

Folder 16 (not filmed) contains photographs connected with the 20 July plot such as pictures of remnants of Staufenberg’s briefcase, explosives, and other technical items. Folder 1 (not filmed) is page 1 of the telegram "Der Führer ist tot" sent out on July 20 from Berlin and in Serial: 38. Folder 5 (not filmed) has the transcript of the Volksgerichtshof in the Witzleben case which has been published in full in the Trial of the Major War Criminals.

This is a record of Hitler’s daily schedule and appointments for the period 14 October 1944-28 February 1945, kept by his Kammerdiener, Heinz Linge. The original was found in the Reichskanzlei in 1945 and is in England, the Departmental Records Branch having a photostat. This film has been prepared from a negative photostat of the original, loaned for this purpose by the British Government, and therefore not stamped with frame numbers. EAP 105/19, not filmed, is a photostat of a transcript made by Hermann Weinberg of the water-damaged original in the National Archives (RG 242) of Heinz Linge’s Record of Hitlers’s schedule and appointments for the period 11 August 1943-30 December 1943.

A stray item lent for filming by the British Government. Extracts from La SS t’appelle: Constitution d’un regiment francais de Waffen-SS (Paris, 1943). These are typed extracts from a publication dealing with the efforts to recruit a regiment for the Waffen-SS in France.
Folder 8. A folder from the office of the Reichsstatthalter in Wien containing the texts of incoming telegrams, 1942. Most of them are of routine nature, dealing with travel permits and such questions. A part of the folder has been filmed. It contains a few documents of general interest and a few routine items. Among the documents are items dealing with the use of Russian prisoners of war on the railroads and one on the negotiations with the Italian Government about the Europäische Jugendverband.

Folder 12 (begins frame 369563). A folder of the Reichskommissar on "Rückführung und Bergung der Zivilbevölkerung," 1939. This folder is of great interest as it shows the preparations of the Germans for evacuating people from the potential combat areas in the West beginning in May, 1939.

This is a group of photostats, prepared by the 7771 Document Center, of a series of appointment and telephone log-books of Heinrich Himmler. The location of the originals is unknown.

Folder 1. This folder is made up of four parts. The first is the appointment register of Himmler for July-August 1937. Only a few of the entries, like the first one, are in Himmler's handwriting. The second part (begins frame 369789) is a pocket calendar for 1931 with notations of Himmler's travels and appointments. The third part (begins frame 369820) is a similar calendar for 1930, and the fourth (begins frame 369853) is for 1929.

Folder 2 (begins frame 369885). This folder contains the daily register for the period 3 January-29 February 1944 and (beginning frame 369943) 2 January-16 December 1943. These calendars contain a sheet for each day and contain the hour-by-hour appointments, trips, etc. of Himmler. Practically all the entries are in his handwriting; the calendars were presumably kept on Himmler's desk. A few of the photostats have lines drawn in colored pencil after the photostats were made. These are the lines drawn around some of the entries.

Folder 3 (begins frame 370265). Like folder 2, for the period 1 March-31 May 1944.

Folder 4 (begins frame 370360). Most of this folder contains the log of Himmler's telephone calls in the period 16 September 1941-17 August 1943. It is of the highest historical importance. On a day by day and hour by hour basis, the phone calls of Himmler are listed in his own handwriting. The entries give the time, name of person spoken to, place of person spoken to, and subject discussed. Apparently sheets with a heading "Telefongespräche des Reichsführers cm..." were placed on Himmler's desk.
