GUIDES TO GERMAN RECORDS MICROFILMED AT ALEXANDRIA, VA.

No. 36. Miscellaneous German Records Collection (Part III)
This is part of a series of guides prepared by the American Historical Association listing records microfilmed at Alexandria, Va., by the American Historical Association Microfilming Project.

An American Committee for the Study of War Documents was established in 1955 as a private group of scholars interested in documentary research and especially in the microfilming of records of foreign origin kept in American depositories. In 1956, the American Committee became a committee of the American Historical Association. Its present chairman is Professor Oron J. Hale, University of Virginia, who was preceded by Dean Reginald H. Phelps, Harvard University, and Professor Lynn H. Case, The University of Pennsylvania. An initial Ford Foundation grant and additional funds provided by the Old Dominion Foundation, the Lilly Endowment and the Avalon Foundation enabled the Committee to undertake the cataloguing and microfilming of declassified German records in the custody of the World War II Records Division of the National Archives (previously TAGO, Departmental Records Branch), at Alexandria, Virginia.

The plans for screening and microfilming these materials were prepared by a Subcommittee on Microfilming under the chairmanship to the end of 1956 of Professor E. Malcolm Carroll, Duke University, and his successor, Dr. Fritz T. Epstein, The Library of Congress. The microfilming team in Alexandria, Virginia, was under the direction of Professor Gerhard L. Weinberg of the University of Michigan in 1956/57, of Dr. Dagmar Horna Perman from 1957 to September 1959, of Mr. James G. McDowell from September 1959 to August 1960, and is now under the supervision of Dr. Willard Allen Fletcher of the University of Colorado.

The American Historical Association expresses its appreciation for the cooperation given to its Committee for the Study of War Documents by the staff of the National Archives, especially its World War II Records Division, and by the U.S. Department of the Army.

PREVIOUSLY PUBLISHED GUIDES TO GERMAN RECORDS MICROFILMED AT ALEXANDRIA, VA.

This Guide is one of a series of finding aids describing those declassified seized German records deposited at the World War II Records Division, National Archives, which have been microfilmed by the Microfilming Project of the Committee for the Study of War Documents of the American Historical Association. This Guide contains the text of data sheets identifying records filmed. A copy of the data sheets has been filmed as a target sheet at the beginning of each roll of film.

This Guide covers 83 rolls of film on which are reproduced part of the records known as the Miscellaneous German Records Collection. Among them are highly interesting files of private papers and diaries of leading personalities in the Third Reich, such as Goebbels, Blomberg, Hider, Jodl, Rosenberg, and others. The Project also filmed the Hitler Manuscript discovered in Alexandria and recently published by the Institut fur Zeitgeschichte in Munich as Hitler's Wirtschaftsbuch. The researcher's attention is also drawn to the Groscurth Papers, a very significant source for the history of the opposition. Additional memoranda and correspondence pertain to such events as the Kapp Putsch, Göring's resignation and the political events of 1932, the July Plot, the surrender of the German Armed Forces and the activities of the Dönitz government in Flensburg. However, the bulk of the files deals with matters of war production, economic warfare, industrial resources, slave labor, public health, sterilization, medical experiments, military legal affairs, isolated events in military campaigns, fortifications, and other topics.

The terms "Serial" and "Roll" in this Guide refer to the sequence of the film. The "Item" number is the identification symbol on the original folder within the captured records collection. "Provenance" indicates, where ascertainable, the archival origins of the documents whose description follows. The symbol "FT" means that the folder has been filmed throughout, the symbol "FS" denotes that the folder has been filmed selectively. "1st frame" gives the frame number of the first page of the folder. Every exposure has been given a frame number consecutively throughout the filming operation. German file numbers, whenever ascertainable, have also been included. The "Notes" provide a general idea of the nature of the materials but should not be taken as exhaustive descriptions. The researcher is urged to check the entire Guide.

The original records have been restituted to the Federal Republic of West Germany. The microfilms are deposited in the National Archives, Washington 25, D.C., as microcopy T-84, rolls RL49-192 and 229-267, and should be requested by adding "T-84" to the rolls desired. The descriptions were prepared by Dr. Gerhard Weinberg, Dr. Bernice Carroll, Mr. Robert Wolfe, Dr. Willard Allen Fletcher and Dr. Miriam Haskett.

It was their file "H-1,e" and contains material on the secret air rearmament activities in 1932, with special reference to the test stations at Rechlin, Rummelsdorf, and Jüterbog (The A-Fall referred to was mobilization). After the creation of the Reichsluftfahrtministerium, this file was taken over by it and incorporated into the files of the office LC III of the Technisches Amt under the Generalluftzeugmeister. Related Luftfahrtministerium files would be in T-177; related Heereswaffenamt files would be

Material from the OKW, probably the adjutantur of Chef OKW, Keitel, pertaining to efforts to comb out troops for the fighting front under Hitler’s order of 27 Nov. 1943, 1943-44.

Papers of the Chef OKW concerning the last efforts to get men into the German Army (Goebbels-Aktion) in the spring of 1945. The documents date from March and April 1945. Annotations marked "K" are Keitel’s.

A stray item from the files of the OKW (with notes initialled by Keitel), "Einziehungsplan für November und Dezember 1944," 21 Nov. 1944. Plans for drafting men for the German armed forces. EAP 12-b-10/1 and 12-1-10/1. These two folders were not filmed. They are barely legible photostats of important compilations of statistics on German losses and conscription plans during World War II, available at the World War II, Records Division, National Archives, Alexandria, Va.

Various stray items of which the one of interest is a report on the 1939 mobilization by the Wehrbezirkskommando München-Gladbach, Nov. 1939.

Stray items concerning manpower problems of the German Army. The interesting item is the text of a talk of an unidentified Wehrkreisbefehlshaber on the problem of getting people out of industry into the army, given in the winter of 1943-44.

Files of the Wehrbezirkskommando Monschau, 1943-44. Included are files on the Tunis- and Stalingrad soldiers and the status of former members of the Belgian Army in the German Army.

Stray item of Wehrkreis VI on the drafting of certain categories of Wehrpflichtige, 1943.

Various items on Jews and Mischlinge in the German Army, 1940-43.

Stray item, OKW, Wehrmachtführungsstab copy of letter, Keitel to Goebbels, on the manpower situation and new inductees of the German Army, August-Oct. 1944, 11 Nov. 1944.

Wehrbezirkskommando Ansbach 1945 records.

Files of the 21. Flak-Division containing copies of the decisions and the bases for the decisions of courts-martial involving members of the division in 1943-45. Note: Frame 154748 was not used at beginning of Roll R179.

Stray items of various provenances dealing with imposition of penalties, including the death penalty, in the German Army, 1940-44.

Concerning complaints against Generalmajor Ehlers, the commander of the 114. Jäger-Division, 1945. The second is correspondence of Oberst Schleinitz, Verbindungsoffizier Gen.St. d.H. zum O.K.M. (i. Seekriegsleitung), 1943-44. This correspondence contains interesting material on the campaign in Italy and the German loss of the Crimea. At the end of the folder is a one-page item related to materials in the EAP 109 series (T-84, Serial 39); it is a copy of the last letter of Graf Ulrich-Wilhelm Schwerin von Schwanenfeld to his wife, of 8 Sept. 1944, before his execution for participation in the plot on Hitler's life.

Correspondence of Oberst Rudelsdorff, a high official in the OKW/Feldwirtschaftamt, 1944. These files are of considerable importance for the operations of the Feldwirtschaftamt and supplement the records of that office filmed on T-77. See also EAP 21-g-16/2b (Serial 156).

Correspondence of Otto-Ernst Schmüdekopf pertaining to his work for the Kriegswissenschaftliche Abteilung der Luftwaffe, the Reichssicherheitsamt, and the Oberkommando der Wehrmacht, but primarily concerning his various publications, 1940-44, especially his works dealing with the British Navy and Germany's Stützpunktpolitik.

Privatakte Hptm. Engel, Band II, 31 July-31 Dec. 1940. Correspondence of Hauptmann, later Major, Engel in the Adjutantur der Wehrmacht beim Führer und Reichskanzler. The correspondence deals primarily with personal requests and appeals of one kind or another sent to Engel or by Engel: promotions, decorations, signed pictures of Hitler, transfers, news of Engel's old regiment, etc.

Correspondence of Major Nikolaus von Below, officer in the Wehrmachtadjutantur beim Führer und Reichskanzler, 1936 and 1942-43. These are letters sent to Below personally by a wide variety of military and civilian friends. Included are a number of letters flown out of Stalingrad pertaining to that battle.

Stray item. Feldafing 1942/43. A printed brochure of considerable interest on the Reichsschule der NSDAP Feldafing.

Oberkommando der Wehrmacht (Flensburg), "Gesamtliste der Generalstäbsoffiziere des Heeres," May 1945. Useful reference list, in alphabetical order, of German officers "i.G." with their last known assignment. This list was presumably prepared after the unconditional surrender. The document is a photostat or blowup from microfilm.

File of unknown provenance with reports on the fate of various categories of German general staff officers, 1939-42. Papers taken from the Oberkommando der Wehrmacht in Flensburg after the unconditional surrender. Various papers, dated 1945, of which the most interesting are Ausweise of officials appointed in the Dönitz "Government."

Photostat of the manuscript diary of Eva Braun, 6 Feb.-28 May 1935. The original is in Record Group 242 in the National Archives.

Transcription of the Haider "Diary" in German and English (rights vested in the United States and administered by the Alien Property Custodian).

Folder of unknown provenance, labeled "General Haider's Daily Notes 16.12.1941-19.9.1942." It contains pencil sheets, mostly in shorthand, with dated entries on subjects, conversations (usually with note of the hour), the position and activities on the German and enemy side, etc. They may include the notes for the situation report which, according to the Editor's Foreword, Vol. I, page I, and footnote p.VII.
28 to Vol.VI, page 265 of the English transcript of the Halder Diaries (see T-84, Roll 191, Serial 280), were "now (i.e. from the end of 1941 onward) made on slips of paper destroyed after the conference." Some of the sheets in this folder have headings like "Einzelpunkte für Führervortrag." The whole collection would seem to be well worth deciphering. It is clearly complementary to the "Diary." In some respects it may have provided the raw material for it. It has much more detail, particularly military detail. On the other hand, the diary has items missing here, quite apart from the few short chronological gaps of this folder (whose chronological order is not consistently perfect). Entries for the last few days before Halder's dismissal (and the end of these notes) are typed and have handwritten marginalia in long- and shorthand. There is also a penciled message from Keitel to Chef Generalstab des Heeres (May 5, 1942). This folder was filmed by the World War II Records Division; there are no frame numbers.

Note: For description of material on rolls 193-228 see GUIDES TO GERMAN RECORDS MICROFILMED AT ALEXANDRIA, VA., No. 8. Miscellaneous German Records Collection (Part II).

The Groscurth Papers, consisting of three files, were brought together by Oberstleutnant Groscurth, a member of the German General Staff who was active in those military circles which attempted the overthrow of the Nazi Regime in 1944. Groscurth was chief of the section for special tasks in Oberquartiermeister IV, Generalstab des Heeres. He was a close associate of Beck, Cather and Canaris until his death in Russian captivity after the battle of Stalingrad. The papers are thus of limited value as far as the history of the July attempt is concerned. The descriptions below offer a general survey of the collection. The three folders have been filmed by the World War II Records Division, National Archives, on one roll of microfilm, original number MR 2091.
This folder contains a variety of items for the period from October 1939 to January 1940. The items are copies of letters, memoranda, reports on matters pertaining to political affairs, military operations, foreign affairs, etc. Each item is preceded by a typewritten analysis in English. Among the more interesting materials are: "Aktenvermerk über die Besprechung im Führerszug am 12.9.1939 in Illnau," attended by Hitler, Ribbentrop, Keitel and Canaris, and dealing with the future of the Polish state; report of an eye-witness to the death of Col. Gen. Fritsch; summaries of the talks carried on between Göring and a Swedish middleman relative to peace with England; digest of Hitler's speech before German generals on 23 November 1939; reports on SS brutalities in the Warthegau of 2 December 1939; report on conversation between Halldorf, Groscurth, and Uster dealing with the growing influence of the SS and public opinion in the Berlin area; correspondence between the Evangelical Church Council and the OKH in which the church authorities ask the military to intercede with the political authorities in order to end the latter's hostile attitude toward the Church; list of clergymen imprisoned or otherwise persecuted; handwritten diaries followed by typed transcripts of the Verb. Gruppe OKW Ausl. Abw. zu OKH, for the period 1 September 1939-1 February 1940.

This folder contains a collection of copies of unsigned memoranda from the hand of members of the group involved in the 20 July plot. The first seven were composed by Ludwig Beck: "Zur Kriegslage nach Abschluss des polnischen Feldzuges," "Das deutsche Friedensangebot vom 6.10.39 und der mögliche weitere Kriegsverlauf," "Zwischenpauke nach dem Misserfolg des deutschen Friedensangebotes," "Eine Wendung im bisherigen Krieg?" "Die russische Frage für Deutschland, eine Skizze," "Die Bedeutung des russisch-finischen Zusammenstosses für die gegenwärtige Lage Deutschlands," "Betrachtung über die deutsche Lage um die Jahreswende 1939/40." Of interest is a memorandum, entitled "Das drohende Unheil," composed by Dr. Hasso von Stzdorf with the assistance of Dr. Erich Kordt, who were Vortragende Legationsrätte in the Foreign Office. Von Stzdorf was on liaison duty to Groscurth's office. Peace efforts of the conspirators via the Vatican are chronicled to a degree in a report of Dr. Joseph Mueller on his activities in this matter in Rom between 6-12 Nov. 1939.

This file contains a collection of copies of reports sent to Obstlt. Oster, chief of staff of Admiral Canaris, during the occupation of the Sudetenland in the period 12 Oct. 1938 to 4 Nov. 1938. Much of this material is reproduced in copies of the Reiseberichte of Groscurth.
during this period, which are included in the file.

Folder of unknown provenance, containing a copy of Einsatz-Wehrmachtsbeschaffungsgesetzes of 28 Aug 1939, and memoranda on practical effects of the law, dated 1943.

Folder of unknown provenance, containing part of the Rechnungsführer examination of a member ofNachr. Abt. 715, March 1944.

Folder of Beobachtungs-Abt. 22, containing examinations, with evaluations, for Rechnungsführer, 1939.

Folder of NSV/Baden-Elsaß, containing incoming correspondence, copies of outgoing correspondence, records of telephone communications and of Einsatzstätte conferences, file memoranda, and lists of supplies dealing with preparations for relief of heavily bombed areas, May 1940-Nov 1944. This material illuminates the organization and functions of the NSV as the major agency in domestic disaster relief during the war years. From the viewpoint of propaganda methods, it is also interesting to follow the evolution of the term "Katastropheneinsatz" to the euphemism "Luftkriegseinsatz" or "Soziohilfe," following Göring's express order of 9 Dec 1943.

Folder of unknown provenance, containing stray items on tax matters: "Reinhardt-Brief Nr. 5 / Fritz Reinhardt, expert on tax and labor matters who became Staatssekretär in Finanzministerium in 1933/ für die Finanzbeamten im Wehrdienst," July 1943, devoted mainly to the latest regulations on income and turnover taxes; report of Wirtschaftsgruppe Elsaß Schaffende Industrie/Reichsgruppe Industrie, entitled "Ergebnis der Sitzung betreffend Besteuerung der Kartelle u. Syndikate am 29. Nov. 1939." These documents are useful as supplementary material to the fragmentary Reichsfinanzministerium records, listed in Guide No. 11 as HA Microcopy, T-178, Rolls 14-16, and R-17.

Folder of Düren Metallwerke AG, containing copies of Reich tax laws and social security regulations, and of correspondence thereon with Finanzamt Düren, as well as advice on the exploitation of tax law loopholes circulated to member firms by Industrie-Vorstände Düren, Busekirchen, Julich, Schleiden, e.v., Aug 1942-Jan 1944. This material is illuminating for the evolution and alterations in tax policies and particularly for the reaction of business circles during the late Weimar and Nazi era. See cross reference in EAP 60-h-22/1, immediately preceding.

The folder of RFSS/Fers.St. containing correspondence from, to, and about Dr. Ernst Schäfer, Leiter der Forschungstätte für Inner- asiern und Expeditionen (part of &quot;Das Ahnenerbe&quot; and later amalgamated with the Sven Hedin-Institut), in which Rudolf Brandt and Ostuf. Ullman appear as intercessors for, and Carl Wolff as antagonist to, Schäfer, and in which Himmler personally participated. At the outbreak of war in Sep 1939, Himmler apprised Schäfer of a plan to organize under the latter's command an expedition to Tibet as the base for fomenting rebellion in northern India, and ordered Schäfer and others to SS-Stab &quot;Der Führer&quot; in Prag for military training. Schäfer approached Admiral Canaris with the complaint that these training orders imposed unnecessary delay in his mission. Canaris in turn informed Himmler, who sharply reprimanded Schäfer for security and military discipline. Wilhelm Keppler, Staatssekretär z.b.V. in the AA, also was kept informed of the project, Sep 1939. During Jun 1940, Schäfer was again in trouble because of unauthorised attempts to revive the project.</td>

Folder of Abwehrbeauftragter Siemens u. Halske, Köln-Bayenthal, containing circulars warning against suspected spies in Germany and abroad, Sep 1938-Aug 1943.

Folder of unknown provenance, entitled "Hitler-Manuskript" and containing an unpublished 32-page manuscript by Hitler on the South Tyrolean Question. In 1926, Hitler had published as a special brochure that fragment of Mein Kampf which dealt with the issue of South Tyrol. The present work may be considered an extension of that commentary and, in his own words, a "Beweisführung für die Richtigkeit unserer nation. ausenpolitischen Auffassung." In view of the fact that he considered an alliance with Italy a sine qua non of German foreign policy, Hitler was highly critical of all agitation aimed at the recovery of South Tyrol. For details concerning the decision not to publish the manuscript, and the subsequent odyssey of this work, see the introduction by Dr. Gerhard Weinberg in the forthcoming publication by the Institut für Zeitgeschichte.
